An example of the work of trusts at Jeffersonville is cited by the Governor. He says the trust has recently closed up a chain factory there and is moving it away. MORPHINE HABIT POSITIVELY CURED!

One Thousand Persons Have Been Successfully Treated for the Morphine, Opium, Cocaine, Allied Drugs and Whisky Habit Without a Single Failure.

Hundreds of letters have been received from parties who were slaves to the drug and drink habit and who had tried almost sixves to the drug and drink habit and who had tried almost every other treatment in vain, but they are now rejoicing in absolute freedom, as they have been cured by the new discovery known as the Antinarcotin Treatment, which in four to eight days positively and permanently cures every case, even those so-called incurable cases. This drug and drink habit, which is a curse to humanity, is a disease and cannot be cured by will power. The reason that this grand discovery makes such phenometal cures is that it is not a substitute, but an antitote which eradicates the stimulant, be it morphine, cocalne or any like drug or stimulant, within three days, and within a week's time it places the patient upon his or her feet a new person. It also eliminates nervousness and pain and brings on a natural soothing and dreamless sieep. It is positively the only cure known to science which permanently cures and leaves the constitution of the patient strong and vigorous. Any one calling or sending their name and address to G. H. Roose, Mgr. Narcotism Hospital, 30th Lucas avenue, St. Louis, Mo., will receive full information as to this wonderful cure; also a long list of testimonials from responsible people, which will make the most skeptical a believer in the efficaciousness of Antinarcotin.
